

MISSOURI STATE NEWS

Plan for a New State House.

A correspondent at New Cambria, Macon county, suggests an easy plan for a new state house for Missouri. Briefly it is this: In 1920 the state will be 100 years old; begin making plans for the new capitol now by providing funds; begin the erection of the building in 1915, so as to have it ready by August of 1920; then have a big centennial exposition at the state capital and dedicate the building at the same time. The correspondent does not favor a bond issue; he opposes one, and declares such a proposition would be defeated if submitted to the people. Two things are patent: one that Missouri needs a new state house and another that the people will have to pay for it. To have such a state house as the position of Missouri demands, would require at least \$5,000,000. Whether this money could be raised in 13 years without an additional tax is a question we do not feel competent to answer. The state is practically out of debt and on the face of things it looks as if this might be done. It would require the setting aside of about \$375,000 a year, to be placed at interest, which seems easy enough in view of the tremendous wealth of the state. No doubt this method would appeal more to the people than a bond issue, and though the process is slow, it is economical and looks feasible. At any rate the proposition is worth considering.—Kansas City Journal.

Build 25-Mile Highway.

Farmers of Greene and Webster counties have hit upon a plan to macadamize the main traveled thoroughfare from Springfield to Marshfield, a distance of 205 miles. There is stone in abundance along the entire highway, and it has been proposed to have this rock crushed and delivered by the farmers without pay. Each farmer is to be asked to contribute a certain number of days' labor during the winter season. The farmers living along four miles of the proposed highway have arranged to build the first section of the road at once. It is expected to complete the remainder within a year.

When the Mississippi Freezes.

The Hannibal Journal says that since 1870 there have been but six seasons when the Mississippi did not freeze over, these being the years of 1873, 1875, 1882, 1891, 1902 and 1904. The thirty times that it did close, the ice stopped running thirty times in December, showing that this is the month when the heavy cold usually sets in. The earliest date recorded is December 4, 1872, and the latest February 24, 1889.

High School Lads in Trouble.

Some of the Hannibal high school boys have been suspended and reprimanded—Will Logan for dressing the bust of Shakespeare in the library in the garb of a football player. David Scott, for placing limberger cheese in lockers and closets of classrooms. The school board in special session regard the affair in the light of a thrust at the morals of the institute.

A Masonic Hall Dedication.

The grand lodge of Masons recently dedicated the new Masonic building at Independence. Grand Master David M. Wilson conducted the services. Five lodges outside of Kansas City were well represented at the gathering. The cornerstone was laid May 20, 1906, by Grand Master A. S. Houston. The building is one of the most imposing in Independence and is three stories high.

To Preserve a River's Beauty.

Strong protests are being made by citizens of Stone, Barry and Taney counties on account of the bill now pending in congress asking legislation giving parties the power to harness the waters of White river in Missouri and Arkansas above Cotter, Ark., for electric power purposes with the understanding that it is not to interfere with navigation. It is asserted by citizens of these counties through which the river runs, that syndicate composed of wealthy men has been formed to use the waters for a distance of 75 miles for industrial purposes. Complaints have been filed with the rivers and harbors committee of the house.

Springfield Raised \$7,000 for Drury. Recently \$7,000 was given by citizens of Springfield toward the \$250,000 endowment fund being raised by the board of trustees of Drury college. The committee in charge of the work hopes to get \$15,000 from the people there. The annual association of the college has increased its pledge to \$15,000.

A traveling salesman died suddenly in Pittsburg, Pa., and some of his friends telegraphed the undertaker an order to make a large wreath. Investigation showed that the telegram ordering the wreath read as follows:
"Rest in peace, on both sides of the ribbon; if there should be room: 'We shall meet in heaven.'"
The undertaker was out of town, and the new assistant handled the job. It was a startling floral piece which turned up at the funeral. The ribbon was extra wide, and it bore the inscription:
"Rest in peace on both sides, and if there is room we shall meet in heaven."

Scrupulous Senator.

Senator Spooner of Wisconsin surprised some members of congress with whom he was chatting the other day by announcing that he has never taken part in a congressional junket of any kind. "I never shall undertake such a journey at government expense," he said. "There is something very objectionable to me in members of congress going on such expeditions." For the same reason that made him sidestep a congressional junket Senator Spooner said he had never been shaved in the senate barber shop, which is maintained at Uncle Sam's expense.

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong?

The cause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dragging sensations, flatulency, nervousness, and sleeplessness.

These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.

Miss J. F. Walsh, of 328 W. 36th St., New York City, writes:—"Lydia E. Pinkham's Vegetable Compound has been of inestimable value in restoring my health. I suffered from female illness which caused dreadful headaches, dizziness, and dull pains in my back, but your medicine soon brought about a change in my general condition, built me up and made me perfectly well."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, Inflammation and Ulceration, and organic diseases. It is invaluable in preparing for child-birth and during the Change of Life. It cures Nervous Prostration, Headache, General Debility, and invigorates the whole system.
